

## Invitation Message

Dear Colleagues,

The 8<sup>th</sup> Asia Pacific International Congress of Anatomists (APICA) will be held in Busan, Korea in October 28-31, 2018. We warmly invite you to the second largest city in the host country of the 1<sup>st</sup> APICA in 1996.

APICA is an academic festival, where the anatomists not only from Asia-Pacific area, but from all over the world can share their experiences and achievements with colleagues, enjoying the other cultures.

The sessions of the 8<sup>th</sup> APICA will cover the diverse disciplines of anatomical science, which includes research and education in the field of Anatomy.

We would like to say that the natural environment of Busan is a perfect example of harmony between mountains, rivers and sea, and the weather of Busan in October is very mild.

We look forward to seeing you at the 8<sup>th</sup> APICA in Busan in October, 2018.

## History of APICA

BEXCO, the venue for APICA 2018

BEXCO (Busan Exhibition and Convention Center), a proud landmark convention center of Busan, is located in the heart of the Haeundae convention district. As the world's 3rd most surprising convention centers of rapid growth' in the past ten years (UIA, 2011), BEXCO boasts its world class facilities in harmony with outstanding natural environment.

BUSAN, the City of Congress

Busan, a bustling city of approximately 3.6 million residents and the second largest city in Korea, is located on the southeastern tip of the Korean peninsula. Its geography includes a coastline with superb beaches and scenic cliffs, mountains which provide excellent hiking and extraordinary views, and hot springs scattered throughout the city. Busan enjoys four distinct seasons and a temperate climate that never gets too hot or too cold. Its deep harbor and gentle tides have allowed it to grow into the largest container handling port in the country and the sixth largest in the world. The average temperature in Busan in October is very mild at 17.1 °C (62.78 °F). The rainy season ends in September, giving way to the clear skies of October.
